# DEDICATION

To Mrs. Mary E. Harvey, Mrs. Doris L. Parker and Mr. Calvin Finlay--who have always been very helpful in many ways throughout our high school career; who have won the love and gratitude of each senior; who have held an interest in us beyond the classroom; who have been our guiding spirit, thus paving the way for a better future for all of us; and, finally for their beneficial influence on all our lives---the members of the graduating class of 1965 take pleasure in dedicating The Hawk.

Dear Friends,

It is my sincere desire that you have benefited by the valuable experiences you have had while in high school. You will need all the skills you have developed here at Carver and many more to cope with the demands of our present day society. It is a must that you continue to study and learn.

Sincerely,

*Harvey A. Fleshmon*

## TO THE CLASS OF '65

Dear Friends,

Congratulations! This is 1965, and you are about to embark upon the ship of life. This is no ordinary voyage; it is one that requires courage, poise, rectitude, faith, probity, and intellectual adaptation.

The completion of your work here marks the epitome of the beginning of your navigational course. However, in 1965 the world demands more than a beginning.

Those who would succeed must become fortified with educational preparation, philosophical principles, and attitudinal congeniality, lest they become a wandering vagabond--lost at sea.

Sincerely yours,

*F. W. Nicholas*

The courses offered in the department are suitable for students pursuing the academic, general or vocational curriculum.

Guidance is related to every aspect of the school's program. Therefore, the main objective of Carver's Guidance Center is to provide guidance services to each pupil in order to help him understand his abilities, interests and personality traits, to develop them as well as possible, to relate them to his life goals and finally find his place in life as a desirable citizen in a democratic society.

The Center is staffed with six counselors who provide individual counseling services to students, collect and systematize accurate information about the pupils so that administration, teachers, parents and other agencies might make intelligent use of the information that the Center is able to provide.

# STUDENT PARTICIPATION ASSOCIATION

Here members of the Student Participation Association prepare pamphlets urging parents to register and vote in the 1964 election.

Left to right:

# NEW HOMEMAKERS OF AMERICA

The New Homemakers of America is a National Organization of pupils studying homemaking in junior and senior high schools. There are 5,064 members of the Virginia Association and 78,969 members of the National organization.

The purposes are:

1. To promote individual growth by developing physical, social and moral qualities.
2. To promote better home living.
3. To promote wholesome recreational activities.
4. To act as a unit for giving service to the school, state and nation.

Officers (front row, seated): Vivian Avery, Parliamentarian; Cheryl Wells, Treasurer; Joan Glascoe, Reporter; Peggy Arrington, President; Dorothy Arrington, Vice President; Hortense Beck, Secretary.

# LIBRARY CLUB

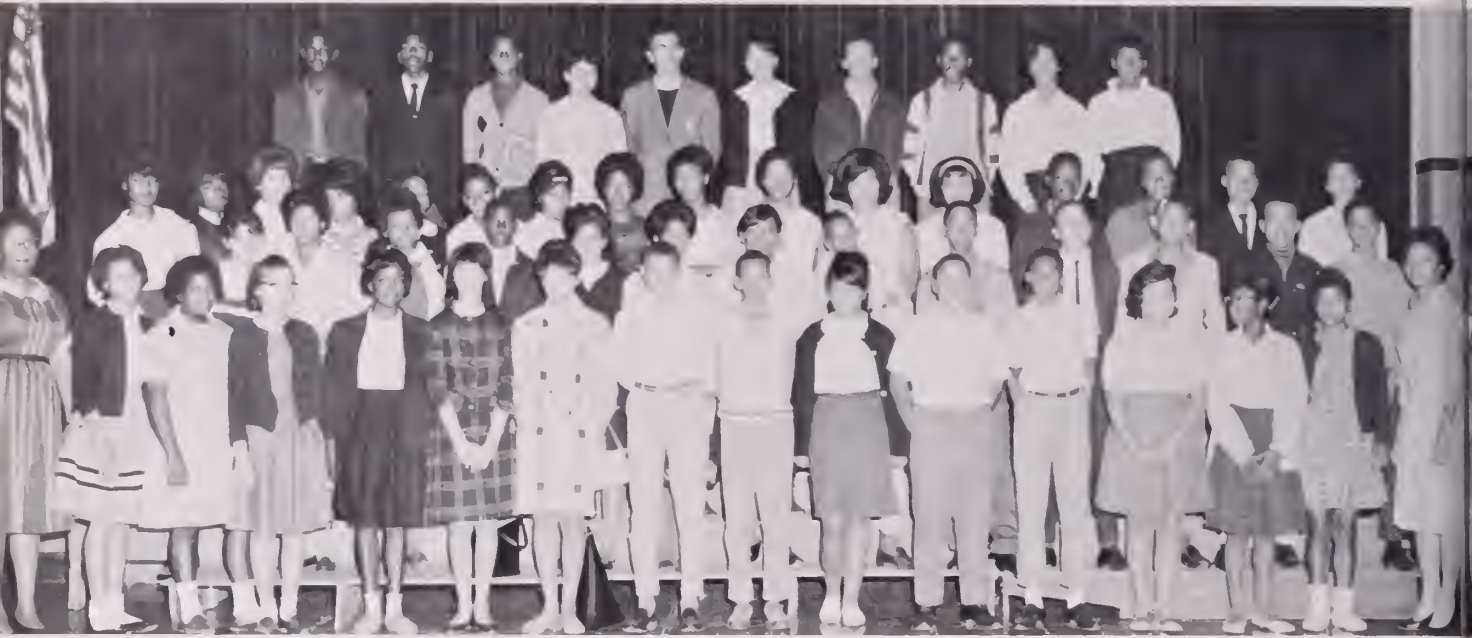

Gloria Anthony, Joyce Collins, Cheryl Wells, Beatrice Gibson, and Margaret Lee--library assistants as well as Library Club members--inspect a just-completed exhibit.

Promoting a greater interest in books, here Gloria Jackson reviews a new book. Listening are (clockwise): Thelma King, Emma Tinsley, Haywood Johnson, Reginald Brown, Cheryl Wells, Marquita Washington, Peggie White, Margaret Braxton, Valerie Boyd, Mary Jackson, Mary Grayson, Joan Brown, Helen Edwards.

Betty Jackson explains why she feels John F. Kennedy's Strategy of Peace is worthwhile reading.

# MATHEMATICS CLUB

The Mathematics Club was organized for the purpose of creating and maintaining interest in mathematics, building up interest on the part of students enrolled in the courses, stimulating interest on the part of students not currently taking mathematics, and cultivating skills and adding special information about mathematics. Many of these objectives are realized by allowing students to concentrate on related experiments for which class time is not sufficient to give the desired training or practice.

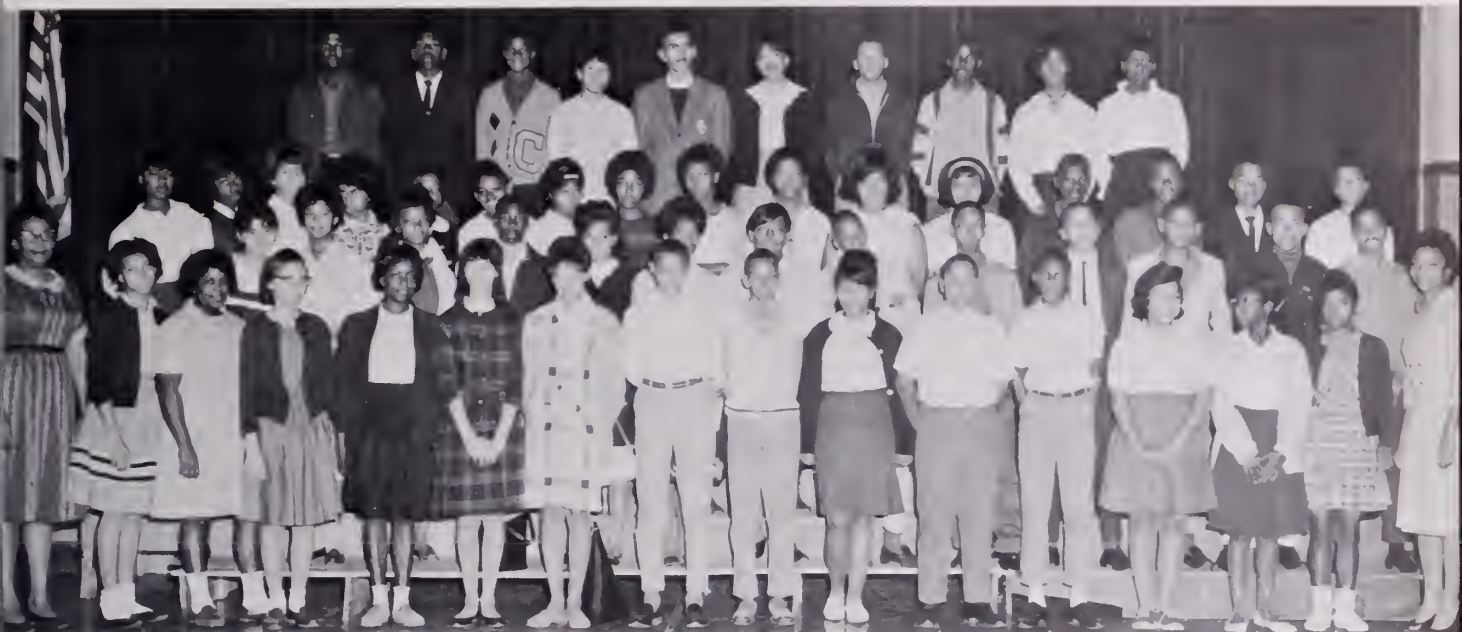

Students may become members of the club if they show a great interest in mathematics and maintain an average of 80 or above.

The "Number Sense Club" has as its officers:

President-----	Anna Lewis
Vice President-----	Virinda Banks
Secretary-----	Mary Lewis
Assistant Secretary-----	Patricia Mayhew
Treasurer-----	Rosie Banks
Chairman of Program Committee-----	Jennifer Mallory
Sergeant-at-Arms-----	Michael Jackson
Reporter-----	Diane Lewis

Sponsors: Miss S. M. Graham, Mr. R. Singletary

# THE SCIENCE CLUB

Science Clubs afford pupils an opportunity for specialization which they do not have in a science class. Members work on their own with topics of their interest and enjoyment.

The science-interested student is probably characterized by the inquisitive mind seeking the answer which is not apparent. He does not accept the obvious as the best, but tends to explore beyond the obvious for the answer to what, why and how. The Science Club plays an important role in developing characteristics of pupils which may give rise to the true scientist.

The "Carver Crucible," the Science Club, has been registered as Chapter #2592 of The Future Scientists of America.

## Officers:

Vice President -----	Sharon Wilson
Secretary-----	Paula Jackson
Assistant Secretary-----	Joan Terrell

# CLASS HISTORY

In 1960, we, the senior graduating class of 1964-65 of Carver, entered the corridors of Carver as frightened and bewildered eighth graders. There were 228 of us enrolled that first year. At that time Carver seemed like an enormous and complex building, but as the year progressed we relaxed and began to concentrate seriously on our schoolwork. To help us make this transition were our sympathetic and understanding sponsors--Miss Reavis, Mrs. Walters, Mrs. Parker, Mrs. Harvey, and Miss Taylor.

Our ninth and tenth grade years passed very swiftly. We participated in the various extracurricular activities. By then Carver had taken on the appearance of a second home to us. During those two years we sponsored different activities, such as school dances, cake raffles, basketball games and selling Journal and Guides to raise funds for the Junior-Senior Prom we were to give our Junior year. Our ninth grade sponsors were Miss Thomas, Mrs. Parker, Mrs. Harvey, Miss Keith, and Mr. Finlay. Unfortunately, during our sophomore year we lost two of our best sponsors but we were lucky enough to retain Miss Keith, Mrs. Parker, and Mrs. Harvey.

During our Junior year we worked long hours to make the Junior-Senior Prom an unforgettable experience for our departing seniors. We had for our theme "With a Song in My Heart". The Rocking Riffs provided the music for us that night. We also crowned Joyce Ruffner Miss Junior. Mrs. Harvey, Mrs. Parker, and Mr. Finlay were our kind and helpful sponsors. Although we were quite happy as Juniors, we were overjoyed at the thought of becoming "big shot seniors."

In 1964 we entered Carver for our final year. Almost from the start plans were made for that great day of graduating. We also worked wholeheartedly to produce a good year-book worthy of our many years at Carver. We were proud and thrilled to have Sylvia Beasley crowned Miss Homecoming for 1964. Our advisors were Mrs. Harvey, Mrs. Parker, and Mr. Finlay, to whom we owe our deepest appreciation and gratitude for their wise counseling.

Throughout our many years at Carver we have left a large number of our former classmates behind in our struggle to reach the top. But those of us who will march down the aisle, hold our heads proud and straight and gaze into the future. Carver will always have an inspiration, moral, social, and memorable effect upon our hearts and minds and the path we choose to take.
